

Like a cat on hot bricks	you are feeling very nervous
Have butterflies in your stomach	not afraid in a difficult situation
Bundle of nerves	have difficulty in expressing yourself because you are nervous
Make your blood run cold	try to hide your fear or nervousity in a frightening situation
On the edge of one's seat	very nervous and restless
Your heart misses a beat	tremble with fear
Nerves of steel	very interested in something nerve-wracking
Shake like a leaf	very nervous, tense or worried
Tongue-tied	a sudden feeling of fear or excitement
Whistle in the dark	it shocks or scares you a lot
