Read & Choose | Doctor's Advice

Dr. Keller: What's bothering you, Amy?

Amy: You know, doctor, I have a terrible headache. Even when I sleep, it hurts.

Dr. Keller: All right. You should drink a lot of water and try acupuncture. Here is an herbal tea for you, too.

Amy: Do you think I should go and lay down?

Dr. Keller: No, actually I think you should breathe some fresh air and go for a walk before bedtime.

Amy: Thank you so much, doctor.

Dr. Keller: You're welcome, Amy

Chris: Good morning, doctor.

Dr. Mendez: How do you feel, Chris?

Chris: Well, doctor, I have another headache. I took the medicine you prescribed me. It didn't help.

Dr. Mendez: What should I do? I'll give you a prescription for another medicine. It's much stronger. Let's hope it helps.

Chris: And what if it doesn't?

Dr. Mendez: We'll see then, Chris. You should sleep some more. See you next week!

Who gave the advice? Choose the correct name.

1. You should drink a lot of water.
2. You should sleep more.
3. You should go for a walk.
4. You should take medicine.
5. You should drink some herbal tea.
