

Digestive System

1. Drag and drop the main parts or organs in the drawing:

Small intestine	Mouth	Stomach
Teeth	Anus	Large intestine

The diagram shows a person eating a sandwich. Arrows point from the mouth, stomach, small intestine, large intestine, and anus to empty boxes for labeling. The small intestine is shown as a long, coiled tube, and the large intestine is shown as a larger, more direct tube.

2. Read the text and select the right option:

We chew food with our _____.

The _____ breaks the food into nutrients.

The _____ absorbs the nutrients.

The _____ takes waste to the _____.

The waste goes out through the _____.
