

Tablepiece Government Primary School

Monday 19th October, 2020.

Social Studies

A) Look at the pictures carefully and write the name of each landform below each picture.

B) Read the description to name each landform.

1. A very tall or high place on earth's surface that is higher than the land around it. It is over 300m high.
2. Low ground between two hills or mountains.
3. Land that rises above the surrounding land and can reach a height of 300m.
