Vocabulary Awareness Chart

Fill out the chart while reading the text. Identify words that seem important to the topic or a key concept. Write them in the first column. Place an X in the blue column that best represents your understanding of each word. In the other columns, write the definition (if you know it); or look it up in the dictionary or google. Then give an example.

Vocabulary Word	I know it	I have heard it before	I don't know it	Definition Context clue	Example
Nucleus					
Golgi Apparatus					
Mitochondrion					
Lysosomes					
Smooth ER					
Rough ER					
Cell membrane					
Ribosomes					

Vacuoles					
Chloroplasts					
Cell wall					
Prokaryotic					
Eukaryotic					
Amoebas					
Cytoplasm					
Organelles					
Pseudopods					
Phospholipids					
Nucleoli					
Robert Hooke					
Enzymes					

DNA					
Microscope
