A. The mountains of Scotland (we call them the Highlands) are a wild and beautiful part of Europe. A golden eagle flies over the mountains. A deer walks through the silence of the forest. Salmon and trout swim in the clean, pure water of the rivers. Some say that not only fish swim in the deep water of Loch Ness. Speak to the people living by the Loch. Each person has a story of the monster, and some have photographs.

B. Tresco is a beautiful island with no cars, crowds or noise — just flowers, birds, long sandy beaches and the Tresco Abbey Garden. John and Wendy Pyatt welcome you to the Island Hotel, famous for delicious food, comfort and brilliant service. You will appreciate superb accommodation, free saunas and the indoor swimming pool.

C. The Camel and Wildlife Safari is a unique mixture of the traditional and modern. Kenya's countryside suits the Safari purposes exceptionally well. Tourists will have a chance to explore the bush country near Samburu, to travel on a camel back or to sleep out under the stars. Modern safari vehicles are always available for those who prefer comfort.

- D.** Arrival can be the hardest part of a trip. It is late, you are road-weary, and everything is new and strange. You need an affordable place to sleep, something to eat and drink, and probably a way to get around. But in general, it's a wonderful trip, full of wonderful and unusual places. Whether it is the first stop on a trip or the fifth city visited, every traveller feels a little overwhelmed stepping onto a new street in a new city.
- E.** No zoo has enough money to provide basic habitats or environments for all the species they keep. Most animals are put in a totally artificial environment, isolated from everything they would meet in their natural habitat. Many will agree that this isolation is harmful to the most of zoo inhabitants, it can even amount to cruelty.
- F.** A new London Zoo Project is a ten-year project to secure the future for the Zoo and for many endangered animals. The plan has been devised by both animal and business experts to provide world-leading accommodation for all our animals, to more fully engage and inform people about conservation issues, to redesign certain aspects of Zoo layout.
- G.** Leave-no-trace camping is an increasingly popular approach to travel in wilderness areas. As the term suggests, the goal is for the camper to leave as little impact as possible on the place he is visiting. One of its mottos is "Take nothing but pictures. Leave nothing but footprints." Its simplest and most fundamental rule is: pack it in, pack it out, but it goes beyond that.

Задание 19. (in class)

Imagine that you are preparing a project with your friend. You have found some interesting material or the presentation and you want to read this text to your friend.

You have 1.5 minutes to read the text silently, then be ready to read it out aloud.

You will not have more than 1.5 minutes to read it.

How many planets are there in the solar system? Eight. If you still think there's nine you've obviously been living in a parallel solar system. Planets must fulfil three criteria: they have to orbit the sun, have enough mass to be spherical, and to have cleared the neighbourhood around their orbit. Pluto only managed the first two, so was demoted to the status of dwarf planet.

It's not perfect. Some astronomers argue that neither Earth, Jupiter or Neptune have cleared their orbits either. But it does resolve the mysterious position of Pluto. Even the planet's discoverers weren't fully convinced of its status. Pluto is much smaller than all the other planets, a fifth the mass of the Moon and smaller than seven of the moons of other planets. It isn't much larger than its own main moon. Its orbit is eccentric and on a different plane from the other planets, and its composition is completely different.
