THE FILM FILE

This week Serena Martin lists her top three films of all time.

Number 1 **Men in Black**
My FAVOURITE FILM OF ALL TIME: *Men in Black*. Will Smith and Tommy Lee Jones are in this film. Will Smith is a police officer **who** works with Agent K in Washington DC. The men work in a big office under the ground and their job is to find dangerous aliens. It's a great comedy film **which** has some scary moments, too.

Number 2 **Mean Girls**
This film is a romance about a girl called Cady **who** goes to a new school. Here she meets a group of girls called the Plastics. They hang out at a café **where** she meets Aaron. She falls in love with him and her problems begin.

Number 3 **Toy Story 3**
This is an animated film about a toy called Woody and his friends, Buzz Lightyear and Mr Potato Head. There's also a dog **which** bends, called Slinky Dog. The toys live in a school **where** children come and play with them. The kids aren't nice so Woody and his friends try to go back to their own home. It's an amazing film for all ages.
