WEEK 19

Let's help endangered animals*

Activity 1

Endangered animals

LET'S SELF-ASSESS

El Perú es uno de los países con mayor biodiversidad en el mundo, aunque muchas especies que habitan en nuestro país están en peligro de extinción, ¿qué animales salvajes viven en el Perú? ¿Cómo y dónde viven? ¿Por qué están en peligro de extinción? ¿Puedo describir a estos animales en inglés?

Expresa cuánto sabes en inglés con las frases en la parte superior de la tabla. Marca con una "X" donde creas conveniente. Aquí, no hay respuestas correctas. Solo responde con honestidad.

Can I do it?	No at all 	Somewhat 	Well 	Very Well 
1. Can I identify key details in a text about animals' characteristics and abilities in English?				
2. Can I describe animals' characteristics using appropriate adjectives and the verbs have, has, don't have y doesn't have in English correctly in a simple text?				
3. Can I describe animals' abilities using appropriate verbs of actions and can and can't correctly in English in a simple text?

LISTEN AND READ

Listen to and read the articles about the wildlife rescue centres in Ucayali and Cusco¹:

Ucayali Wildlife Rescue Centre

Hi! My name is Ricardo and I'm a veterinarian at the Ucayali Wildlife Rescue Centre. At this centre, we take care of animals that were rescued in the Peruvian jungle from trafficking. There are a lot of animals here. These are some of the most popular animals that we rescued.

This black monkey is called a spider monkey or *maquisapa*. It lives in the jungle of Peru. It can climb trees because it has long arms and legs and a very flexible tail, but spider monkeys don't have thumbs like other monkeys. The spider monkey can also swing from tree to tree to find fresh fruit.

These little ones are called *Taricaya* turtles. They can't run fast, but they can swim quickly. They have a hard shell on their backs to protect them from predators.

My favourite animals are the macaws. Macaws have colourful wings and beautiful feathers. They can fly long distances. They can learn to repeat some words, but they can't have conversations like us.

All these animals are endangered. We have to take care of them or they could go extinct.

Cusco Wildlife Rescue Centre

Hello! My name is Melissa and I'm a volunteer at the Wildlife Rescue Centre in Cusco. We take care of rescued animals so that one day they can return to the wild. These are some of the most popular animals that we have rescued.

This is *Naga*, the puma. She is three years old and she was rescued from an illegal zoo. She has golden fur and a long, strong tail. She looks like a lion, but she doesn't have a mane. She can jump almost 6 metres horizontally.

Chico is the most popular animal here. He is a condor and he has a wide wingspan, strong claws to catch his prey, a white neck, but condors don't have feathers on their heads. We rescued him from a restaurant. Someone had cut his feathers, so he can't fly yet. We hope he recovers fast so he can return to his habitat in the mountains.

I love taking care of these animals, but it's upsetting to see them wounded. We have to be responsible and protect our wildlife.

¹Ambos centros de rescate de animales presentados en los textos son ficticios.

LET'S UNDERSTAND

UNDERSTAND: EXERCISE 1

Write TRUE, FALSE or DOESN'T SAY for the following sentences and justify your answers copying the extract from the text. Follow the example:

Example:

LET'S PRACTISE!

PRACTISE – EXERCISE 1:

Make sentences about the animals in the pictures. **Use** the actions verbs in the box and “**can**” and “**can't**”.

Follow the example:

ACTION VERBS

run – swim – fly – climb – hunt – jump

Example:

Spectacled bear can climb trees, but they can't jump.

1. Alligators _____, but
_____.

2. Hummingbirds _____, but
_____.

3. Spider monkeys _____, but
_____.

NOTE:

Remember that
“but” is used to
contrast ideas.

PRACTISE – EXERCISE 2

Complete the description of an animal using “have”, “has”, “don't have”, “doesn't have”, “can” or “can't”.
Follow the example:

Maya

Maya is a spectacled bear. She is originally from the jungle of Cusco, but now she lives in a wildlife rescue centre. Spectacled bears have (1) black fur and white spots on their faces. Maya _____ (2) spots, but she _____ (3) big ones. Some bears _____ (4) spots on their faces and chest. Spectacled bears _____ (5) very strong arms, so they _____ (6) climb tall trees and sometimes hunt animals to eat. Maya _____ (7) a smaller body because she is a female. Males are bigger than females.

Maya was rescued from trafficking and she _____ (8) go back to her habitat yet because she needs to recover completely.
