

EXCERCISE

LOOP-THE-LOOP PAPER PLANE

Material needed

A sheet of heavy paper
A pencil
Sharp scissors
A paper clip
Crayons

Method

Here's a paper airplane that will fly in circles.

1. First fold the paper in half the long way.
2. Then draw an airplane with wings and a tail on it.
3. Next draw a line about an inch away from the fold on each side the full length of the paper.
4. Then cut out the airplane, but do not cut on the fold.
5. After that spread out the airplane and colour it. You can draw airplane markings near each wing tip.
6. Next refold your airplane. Now fold Beach wing down along the line drawn on it.
7. Then add a paper clip to the nose. You can change the way your airplane flies by changing the wing shape and putting more than one paper clip on the nose.
