

## UNIT 2 SENSITIVITY

### Remember:

\_\_\_\_\_ is the ability to **detect** and **respond** to information about the **environment**.

1.- We detect the information (stimulus) with our \_\_\_\_\_.  
(Sight, hearing, \_\_\_\_\_, taste and touch)

2.- \_\_\_\_\_. The **nerves** send the information to the \_\_\_\_\_ which thinks of a response.

3.- \_\_\_\_\_. Nerves send the message from the brain to \_\_\_\_\_ that carry out the response to move our body.
