

Comparación de fracciones

Ejercicio: compara las siguientes fracciones usando mayor que (>) menor que (<) o igual (=)

1.

$$\frac{7}{10}$$

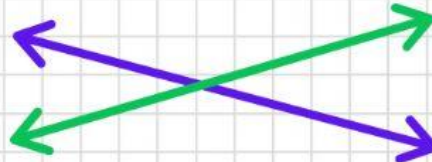

$$\frac{5}{9}$$

$$7 \times 9 =$$

$$5 \times 10 =$$

2.

$$\frac{6}{8}$$

$$\frac{3}{4}$$

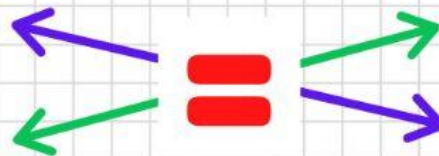

$$6 \times 4 =$$

$$3 \times 8 =$$

3.

¿Qué número hace falta para que las fracciones sean equivalentes?

$$\frac{2}{6}$$

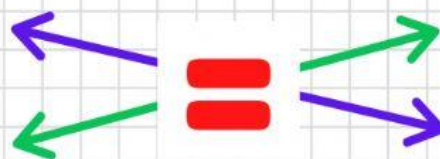

$$\frac{3}{6}$$

$$2 \times 3 = 6$$

$$6 \times = 6$$

4.

$$\frac{\quad}{10}$$

$$\frac{1}{2}$$

$$\times 2 =$$

$$10 \times 1 =$$
