

# Mixed Addition and Subtraction

**Directions:** Look for a pattern to solve each problem.

1.  $33 - 6 = 27$   
 $23 - 6 = \square$   
 $13 - 6 = \square$

4.  $56 - 11 = \square$   
 $46 - 11 = \square$   
 $36 - 11 = \square$   
 $26 - 11 = \square$

7.  $43 + 7 = \square$   
 $43 + 17 = \square$   
 $43 + 27 = \square$   
 $43 + 37 = \square$

2.  $100 - 15 = \square$   
 $100 - 30 = \square$   
 $100 - 45 = \square$

5.  $98 + 15 = \square$   
 $98 + 25 = \square$   
 $98 + 35 = \square$

8.  $67 + 13 = \square$   
 $57 + 13 = \square$   
 $47 + 13 = \square$

3.  $47 + 15 = \square$   
 $37 + 15 = \square$   
 $27 + 15 = \square$

6.  $72 - 20 = \square$   
 $62 - 20 = \square$   
 $52 - 20 = \square$   
 $42 - 20 = \square$

9.  $62 - 40 = \square$   
 $62 - 30 = \square$   
 $62 - 20 = \square$   
 $62 - 10 = \square$
