

Write the value of the underlined digit in the empty diamond.

Look at the example then write the expanded form of each 2-digit number in the white boxes.

$$45 = 40 + 5$$

Drag and drop the appropriate word form and drawing form for each 2-digit number.

	26	
--	----	--

Forty-seven

	33	
--	----	--

Thirty-three

	47	
--	----	--

Eighty

	80	
--	----	--

Fifteen

	15	
--	----	--

Twenty-six

Choose the correct standard form for each expanded form.
