They won't go to the village,

These clothes are new,

I'm your teacher,

There is much work to do here,

There is no ramen soup in the town,

She never says to him,

They have got a new task,

They had many enemies last summer,

They had no time to discuss the problem,

is there?

does she?

didn't they?

will they?

aren't I?

isn't there?

did they?

haven't they?

aren't they?
