

SAVE OUR ENVIRONMENT

We can save our environment!

These are some of the things we will do:

1. Our class will collect paper and plastic bottles, and recycle them.
2. We will grow vegetables.
3. We won't waste water.
4. We won't waste electricity.
5. My parents will bring bags for shopping. No more plastic bags!
6. I will recycle batteries.
7. My friends will walk to school - they won't go by car.
8. I will use a plastic box for my sandwich.
9. We will pick up garbage from the street. We won't drop garbage any more.
10. We will walk up and down the stairs instead of taking the elevator (מעלית)
