| 4. ALWAYS ON THE MOVE | |

- A.** Music is an art form that combines vocal and / or instrumental sounds together to show an emotion. Music can describe feelings and thoughts that many people have. Music has synonyms like melody, harmony, and song. Music is a natural way to communicate. It can say many things to many people. It has a very long history. Many people have tried to write and to perform music.
- B.** Music has many other great uses. It is beneficial for a person's health and even their mood. Studies have shown that people who listen to music are much smarter, remember more information, and are in better moods for longer periods of time than people who do not listen to music at all throughout the day. Everyone should include music in their life as a way to express themselves, whether it is by radio, CD or even online.
- C.** There are many different music genres for a person to enjoy. Each genre has its own unique sound, beats, and feeling. Each music genre includes varied music artists and performers that produce the same type of music with a certain sound in common. The type of music genre a person enjoys listening to depends on personal preference. Many people enjoy listening to multiple music genres.
- D.** As time goes on, the genres of music are combined in new ways. For example, during the time when rock music first arrived, there was no rap or dub-step. Music is always changing with the times to stay modern. Since people can change their preference in music, music must change to stay popular. Music will always change and always become better.
- E.** When people hear a certain song and listen to the lyrics, they can hear about a situation or experience that they may have in their lives. The song can also express particular emotions. Music can help others feel better because they know that another person has been through the same difficulties, and has felt the same emotions. A special song, with amazing lyrics and a good rhythm, can mean so much.
- F.** Music can describe a person. If a person listens to angry music all of the time, they are probably a very angry person. If a person listens to country music all of the time, they are probably a cowboy or a cowgirl. Music is an expression of a person, describing who they are and how they are. The type of music a person chooses to listen to says a lot about them and about their opinions.

What's the Secret of Successful Language Learning?

We asked two experienced teachers of English for their opinion. Alastair Banton is a teacher at a private Language school in the UK. He has also taught English in Japan.

«The most important thing is that you really have to want to learn the language — without that you won't get very far. You also have to believe that you will do it ...

Image yourself using the language confidently. There are other things: of course, you need to work hard, but at the same time you need to enjoy it and not get frustrated when you need you feel you're not making much progress. And you have to be realistic — learning a language takes time, and you can't expect to know and understand everything in a few weeks! You also should try to 'develop an ear' for the language — not only to recognize the sounds of the language and to understand what

people are saying, but also notice the exact words and phrases that people use... and then try to use them yourself. Some people can do this naturally, but others have to learn how to do it — that's where having a good teacher is important. »

Teresa Pels is a teacher of English in Poland. She has taught English in a secondary school for a number of years.

«Motivation is the most important thing. You have to be ready to study grammar, read a lot, listen to English songs, radio and TV, and what's more you have to do these things systematically. It is so easy to forget what you have just learnt... that's why I needed a teacher to force me to study. Even the most motivated students need that extra push sometimes. Learning a language can be quite stressful, especially for adults... But if you're motivated, you learn to overcome this. It all sounds like very hard work — and it is. It is also very enjoyable — I praise my students for everything they do well. Many of them are very successful! »
