

LA MULTIPLICACIÓN Y SUS PROPIEDADES

1. Aplica la propiedad conmutativa en los siguientes ejercicios:

$14 \times 2 = \boxed{\quad} \times \boxed{\quad}$  $\boxed{\quad} = \boxed{\quad}$	$33 \times 3 = \boxed{\quad} \times \boxed{\quad}$  $\boxed{\quad} = \boxed{\quad}$
$125 \times 2 = \boxed{\quad} \times \boxed{\quad}$  $\boxed{\quad} = \boxed{\quad}$	$400 \times 4 = \boxed{\quad} \times \boxed{\quad}$  $\boxed{\quad} = \boxed{\quad}$

2. Aplica la propiedad asociativa en los siguientes ejercicios:

$3 \times (6 \times 5) = (\boxed{\quad} \times \boxed{\quad}) \times \boxed{\quad}$  $\boxed{\quad} \times \boxed{\quad} = \boxed{\quad} \times \boxed{\quad}$  $\boxed{\quad} = \boxed{\quad}$	$12 \times (10 \times 4) = (\boxed{\quad} \times \boxed{\quad}) \times \boxed{\quad}$  $\boxed{\quad} \times \boxed{\quad} = \boxed{\quad} \times \boxed{\quad}$  $\boxed{\quad} = \boxed{\quad}$
---	--

3. Aplica la propiedad distributiva de la multiplicación, respecto a la suma:

$6 \times (3 + 4) = (\boxed{\quad} \times \boxed{\quad}) + (\boxed{\quad} \times \boxed{\quad}) = \boxed{\quad} + \boxed{\quad} = \boxed{\quad}$
$8 \times (5 + 8) = (\boxed{\quad} \times \boxed{\quad}) + (\boxed{\quad} \times \boxed{\quad}) = \boxed{\quad} + \boxed{\quad} = \boxed{\quad}$

4. Aplica la propiedad distributiva de la multiplicación, respecto a la resta:

$9 \times (8 - 2) = (\boxed{\quad} \times \boxed{\quad}) - (\boxed{\quad} \times \boxed{\quad}) = \boxed{\quad} - \boxed{\quad} = \boxed{\quad}$
$3 \times (7 - 5) = (\boxed{\quad} \times \boxed{\quad}) - (\boxed{\quad} \times \boxed{\quad}) = \boxed{\quad} - \boxed{\quad} = \boxed{\quad}$
