NAME_____ **DATE:**_____

MAIN IDEA/DETAILS

Every summer, Ms. Stubbs and her class take a field trip to the Adastra Gardens and Zoo Conservation Centre. When they arrive, they get to see many different plants and animals from The Bahamas and around the world. Viewing the flamingos are a favourite as they march like a troop of soldiers to the commands of their trainer! Next, they make their way to the large cages at the back where standing at a safe distance they are in awe of the huge cats such as lions, tigers and even a jaguar. Each student will get a chance to take a picture at their most favourite attraction of the tour and will write about the experience once they return to school. Ms. Stubbs' students love making this field trip!
