

Reading: Let's work!

2. Match the **environmental problems** with their **cause and consequence**.

CAUSE: tree cutting.

CONSEQUENCE: destruction of animal habitats.

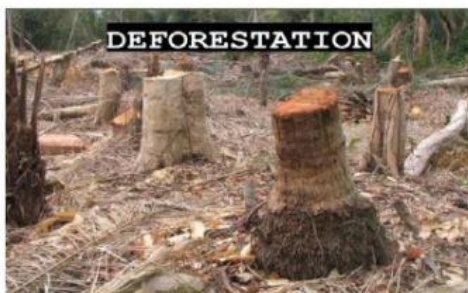

CAUSE: waste.

CONSEQUENCE: harm to sea life.

CAUSE: emissions from cars and factories.

CONSEQUENCE: negative impact on the ozone layer.

CAUSE: accumulation of plastics.

CONSEQUENCE: contamination of land and water.

CAUSE: littering, pesticides, fertilizers, chemicals.

CONSEQUENCE: contamination of food growing in the land.
