## Rounding Practice

Look at each number on the number line. Circle where the number will round to the nearest ten.

**Remember:** if the one's place has 5, 6, 7, 8, or 9 shove it up! If it has 4, 3, 2, or 1 keep it low.

Try without a number line. Circle the number that rounds to the nearest ten.

1) 59 50 or 60

2) 11 10 or 20

3) 66 60 or 70

4) 34 30 or 40
