

$$\begin{array}{l} 4 + 1 = 5 \\ 2 + 2 = 4 \\ 1 + 3 = 4 \end{array}$$

Sustracción de fracciones homogéneas

❖ Aplica la técnica operativa y resuelve las sustracciones de fracciones homogéneas. Luego, relaciona con su representación gráfica.

$$\frac{\boxed{9}}{\boxed{12}} - \frac{\boxed{5}}{\boxed{12}} = \frac{\boxed{}}{\boxed{}} \quad \bullet$$

$$\frac{\boxed{7}}{\boxed{8}} - \frac{\boxed{4}}{\boxed{8}} = \frac{\boxed{}}{\boxed{}} \quad \bullet$$

$$\frac{\boxed{11}}{\boxed{14}} - \frac{\boxed{7}}{\boxed{14}} = \frac{\boxed{}}{\boxed{}} \quad \bullet$$

$$\frac{\boxed{4}}{\boxed{6}} - \frac{\boxed{1}}{\boxed{6}} = \frac{\boxed{}}{\boxed{}} \quad \bullet$$
