

## Changes in water

- Look at the picture. Where can you see water?

- We can see water in different **forms** or **states**, depending on its **temperature**:

GAS

When the temperature is very high, water takes the form of **steam**.

LIQUID

When the temperature is not very high, nor is it very low, we simply call it **water**.

SOLID

When the temperature is very low, water takes the form of **ice**.

## Activity 5

- Where can you see water? **Tick** the pictures.

## Activity 6

- Look at the pictures and **complete** the sentence.

Water changes to \_\_\_\_\_.

Water changes to \_\_\_\_\_.

There is ice in all places.
