OLYMPIC SPORTS: CAN/CAN'T

- Read the descriptions and complete with the correct Olympic sport of the rings.

- ✓ This sport is practiced between two teams of eleven players who try to introduce the ball into their opponent's goal by pushing it with the feet, the head, or any part of the body except the hands and arms.
- ✓ This sport is played between two teams that try to introduce a small ball or a disk into the opposing goal using a long, flat, curved stick at one of its ends.
- ✓ In this sport, two opponents, following certain rules, fight hand to hand in order to knock down and immobilize the opponent so that they touch the ground with their back for a few seconds; victory can also be achieved by abandonment of the opponent or by decision of the judges.
- ✓ This is a set of sports practices that includes speed, jumping and throwing tests like: javelin, shot, discus and hammer throw; high and long jump;
- ✓ This is a team sport, played between two sets of five players each one, during four periods of ten or twelve minutes. The objective of the team is to score points by putting a ball through a basket.
- Answer: **Yes, I can** or **No, I can't**.
