

## SENSE OF SMELL

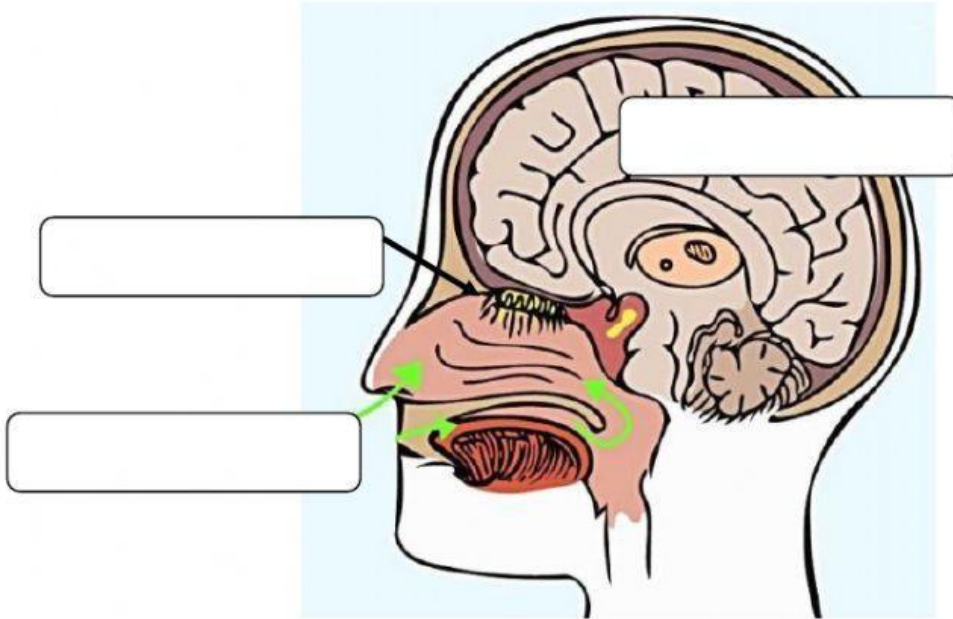

My nose is the organ of my smell sense.

### 1. Label the picture.

olfactory nerve

brain

nostrils

### 2. True or false.

- The senses of **taste and smell** are connected. \_\_\_\_\_
- When you **have a cold** you breathe perfectly. \_\_\_\_\_
- Air enters the nose through two small holes called **nostrils**. \_\_\_\_\_
- The **olfactory nerve** detects the smell and sends the information to the brain. \_\_\_\_\_

Have a cold

### 3. Tick on what it smells good for you.
