Look at the timetable. Listen and read. Which is Emily's favourite school day?

My favourite school day

Our first lesson is always science. It starts at quarter to eight and it finishes at quarter to eleven. We usually do experiments and learn about the world around us. I like learning about how the human body works.

After break, we've got PE. In the summer, we usually go outside and play rounders or do athletics. In the winter, we usually play basketball in the gym.

After lunch, we've got literacy. We usually write stories and read them to the class. We sometimes write them together in groups. I like thinking of story ideas with my friends.

Our last lesson is always maths. We usually do a quiz at the beginning of the lesson. I find maths difficult, but our lessons are fun!
