Script:

Kayleigh talks about her family

– Can you tell me about your wider family, do you see them often?

- I live in England with my mom, my dad and my brother, and I have no other relatives in England. They all live in either South Africa or Portugal. And I never really get to see them because it's quite expensive. And they can't really come here either because again it's really expensive.

– And do you have a favorite relative?

–My favorite relative is either my cousin Sabrina who is eighteen and she's just gone to the university, or my grand-ma, on my mother's side, called Maria, because she spoils me and she's just the best person.

Can you tell me about your wider family?

– All my other family live either in France or in Ireland. In France we go there twice a year and we see them usually in those holidays. My uncle is in Paris and he is definitely my favourite.

– And do you speak French or English with them?

– French.
