

November 17 Level 2 Math Problem

Click on the stars.

The stars show where the parade starts and ends.

Count the landmarks on this map.

9	12	2
----------	-----------	----------

How many blocks will the floats have to travel?

7 7

- 5 4

+
2
+
1
=

(the 2 extra blocks across 59th)
(the 1 extra blocks across 34th)

26 blocks	17 blocks	9 blocks
------------------	------------------	-----------------

Which direction is the parade moving?

north	west	south
--------------	-------------	--------------
