**READING COMPREHENSION (20)**

**Read the story and then put the events in the correct order 1-5.**

*The teenagers were scared and they had no idea where they were. All around them there were trees, birds, flowers and several paths. One of those paths led to their camp, but which one was it?*

*They had been walking through the jungle with the rest of the group when they got lost. They didn't know what to do, so they sat down to rest while they decided.*

*Sally, one of the teenagers, walked off to look at some flowers. All of a sudden, she heard a terrifying sound. She quickly hid behind a tree and took a deep breath, then she looked. It was a tiger! She couldn't believe it! How would she escape? She had to think fast. The tiger was drinking water at a nearby stream. If she tried to run, it would hear her. What could she do? "I know" thought Sally.*

*Shaking with fear, she picked up a small rock and threw it. The tiger ran towards the sound and Sally ran the opposite way. She ran as fast as she could and finally she saw the camp. She was safe...Now she just had to go back and get others.*
