It absorbs oxygen from the air.

**3. What is nutrition? Order the words to answer.**

getting      process      the      Nutrition      of      is      energy.

---

## THE DIGESTIVE SYSTEM

**1. Label the organs of the digestive system. Choose the correct option.**

2. Write the names of these organs.

3. Which organ is it? Drag (arrastra).

small intestine

teeth

stomach

esophagus

large intestine

|  |  |
|--|--|
|  | They chew the food.  |
|  | It connects the mouth to the stomach.                        |
|  | It absorbs water and eliminates faeces.                      |
|  | It mixes food with special liquids and the digestion starts. |
|  | It is a long tube. It absorbs nutrients.                     |

4. Choose the words related to the **digestive system**.

large intestine

oxygen

urine

eat

stomach

trachea

faeces

pancakes

esophagus

small intestine

nose

mouth

5. Number to order the process of digestion.

The food goes down the **esophagus** and enters the stomach.

**Finally**, in the **large intestine** water is absorbed. Faeces are eliminated from our body.

In the **stomach** the digestion starts.
