

A. Read at least two eco-friendly ideas.

Tom Baker

Age: 12

Country: America

I go shopping with my parents every week. We don't use plastic bags any more. We put the food in special "green" bags. These bags aren't harmful to the environment. Plastic bags hurt and kill millions of animals around the world. The animals try to eat the bags or they get caught in them and die. You can use "green" bags many times and they aren't heavy at all. I buy the bags at the local supermarket and they don't even cost a lot of money!

Leila Ron

Age: 14

Country: Israel

We are eco-friendly family. We do everything we can to protect the environment. My brother and I have eco-friendly schoolbags. They are made of recycled plastic bottles. Our notebooks are made of recycled paper and we also use special pencils. They look like regular pencils, but they are made of 100% recycled newspaper. My mother wraps our sandwiches in bags we can use again. We never use plastic bags at all.

A. Answer the following questions.

ענו על השאלות הבאות.

1. From the texts above you can (-).
 - a. learn about shopping
 - b. learn how to protect the environment
 - c. learn about bags
2. Complete the sentence.

השלימו את המשפט.
