Discussion topic

Do you have any use for money?

We are often told that "you can't buy happiness",

•If you were richer, do you think you would be happier? Why/why not?

•If you had no money at all, do you think you could be happy?

•Can you think of any examples of people who are rich and miserable?

•Can you think of any examples of people that are poor and happy?

•Which do you think are *generally* happier - rich people or poor people?

•Do you think money can have a negative effect on people? In what way?
