

SPELLING PRACTICE: emails & websites

"Could I get your email address?"

"Would you mind telling me your email address?"

"Could you tell me your email address? "

"Can I get the website address?"

Learn the useful symbols for spelling out email or internet addresses, and other things.

Write the appropriate number:

@	1. open/close the parentheses
.	2. underscore
com	3. hashtag
:	4. inverted commas <i>or</i> quotation marks
;	5. (forward) slash
word-word	6. in italics
word_word	7. double u double u double u*
/	8. space <i>or</i> new word
//	9. com
#	10. at
()	11. in bold
« »	12. capital/upper case letter
a	13. colon
A	14. double slash
word	15. all one word
word	16. small/lower case letter
word word	17. dash
wordword	18. « eitch ti ti pi es »
https	19. semi-colon (<i>hyphen</i> in the middle!)
www	20. dot (not <i>full stop</i> (UK), nor <i>period</i> (US) when giving an email address)

* *or dub dub dub* in New-Zealand! ;-)

<https://www.usingenglish.com> 🗣️ or you can just say: 🗣️

Because most people know the main Top Level Domains, you can just read them out as words:
"dot com," "dot org," etc.

If you want to be sure:

"Lower case or upper case?"

"That's all lower case, right?"

"Any capitals?"

"Any upper-case letters?"
