

Kalkulatu hurrengo zenbakien arteko mkt edo zkh orri batean eta jarri laukietan emaitza:

$mkt(8, 14) = \square$

$mkt(9, 36) = \square$

$mkt(2, 3, 4) = \square$

$mkt(2, 3, 8) = \square$

$zkh(100, 75) = \square$

$zkh(90, 40) = \square$

$zkh(150, 25) = \square$

$zkh(80, 44) = \square$

$mkt(30, 80) = \square$

$mkt(32, 4) = \square$

$mkt(20, 70) = \square$

$mkt(15, 40) = \square$

$zkh(100, 12) = \square$

$zkh(150, 25) = \square$

$zkh(80, 16) = \square$

$zkh(40, 14) = \square$

$mkt(25, 90) = \square$

$mkt(10, 45) = \square$

$zkh(50, 15) = \square$

$zkh(60, 15) = \square$
