water		

Earth is the planet we live on. There is land, mountains, forests and cities on Earth. But most of Earth is (0) water: the oceans cover two thirds of the Earth. This is why the Earth is (1) _____ when people take photographs from space. Under the ocean there is a wonderful world of (2) _____ and animals. The highest mountains on Earth are actually under the sea. The island of Hawaii is really the top of a mountain. This mountain is 10,000 m higher (3) _____ Mount Everest.

At the bottom of the sea it's cold and black and there is almost no (4) _____ down there. But the ocean is rich. You can (5) _____ salt in the sea and there is also gold, silver and other minerals. And do you know that with the oil from fish we can (6) _____ glue, soap, and margarine?

The Earth is our home so we need to take good care of it.
