

Oblicz sposobem pisemnym. W każdej kratce umieść tylko jedną liczbę.

a) $2764 + 561 =$

b) $3051 - 678 =$

d) $124 \cdot 6 =$

e) $2700 \cdot 130 =$

A blank 10x10 grid with two thick horizontal lines. The grid is composed of 10 columns and 10 rows. Two thick horizontal lines are drawn across the grid, one at the second row and one at the seventh row, dividing the grid into three sections: a top section of 2 rows, a middle section of 5 rows, and a bottom section of 3 rows.

f) $985:5 =$

[illegible]

g*) $1632:12 =$
