Teacher Malo

Match the titles to their definitions:

Have little text, a big and clear image related to the topic, and bright colors. They had to show what the problem was and, sometimes, a possible solution.

Some examples of them include people walking in silence around an ancient tree, planting trees that form shapes and messages of protest, and lining up recyclable materials in a park.

Participatory art

Posters

Memes

Graphic expressions that are pieces of information containing a belief or idea that spreads on the Internet.

Is a short video that shows images of what needs to be changed. It lets us see the problem.

Emerged with performances and installations, where ordinary people were encouraged to transform, play, make use of, and be part of the movement or the protests at the same time they were being artists.
