Calculate the Range of a Data Set - easier

Month	Total Rainfall (Inches)
March	1
April	2
May	1
June	2
July	2
August	8

Find the range of the data for total rainfall by month:

Step 1 – Put the numbers in order from lowest to highest.

__1__ , __1__ , __2__ , _____ , _____ , _____

Step 2 – Subtract the smallest number (lowest) from the largest number (highest) to find the range.

__8__ - __1__ = _____

Which is the range for this data set?

2   5   7

Favorite Sports	
Baseball	9
Basketball	6
Tennis	8
Soccer	5
Swimming	2

Find the range of the data for "Favorite Sports":

Step 1 – Put the numbers in order from lowest to highest.

__2__ , __5__ , _____ , _____ , _____

Step 2 – Subtract the smallest number (lowest) from the largest number (highest) to find the range.

__9___ - __2__ = _____

Which is the range for this data set?

9   7   4
