

water slowly commercial home hard colour

The video is a bank _____ from Malaysia. It uses Oobleck, it is a so-called non-newtonian liquid.

It means that it changes it's behaviour.

If you _____ put your hand in it, it is liquid, just like _____. But if you hit it _____, it is solid. If you place your foot in it gently, your foot sinks in it. If you jump or run on it, it is a hard surface.

If you pour it, it looks like a slushy, liquid.

You can make some at _____, mix one cup of water with 1.5-2 cups of corn starch.

You can add _____ to it.
