Part 4

Reading

Read the passage and answer the following questions.

Energy plays an important part in our modern life. We use energy for transportation, cooking, heating and cooling rooms, manufacturing, lighting, and entertainment. We rely on energy to make our lives comfortable, productive, and enjoyable. To maintain our quality of life, we should use our energy resources wisely. The choices we make about how we use energy—turning machines off when we're not using them or choosing to buy energy efficient appliances—have impacts on our environment and our lives. There are many things we can do to use less energy and use it more wisely. These things involve energy conservation and energy efficiency.

Most energy nowadays comes from fossil fuels – oil, coal, and natural gas. However, burning fossil fuels causes pollution. Moreover, if we don't find new energy sources, all the fossil fuels will be used up in the near future.

1. What do we use energy for?

→

2. Do we rely on energy to make our lives comfortable?

→

3. Where does most energy come from?

→

4. Does burning fossil fuels make the air clean?

→

5. What will happen if we don't find new energy sources?

→
