

What is Wonderful About the Brain?

Inside your head is a remarkable organ, the brain. You use it to understand and remember things that (1 – to happen) around you.

The brain is soft and spongy. It (2 – to make up) of billions of tiny parts called cells. Three coats or membranes (3 – to cover) the brain. The brain sometimes (4 – to call) the busiest communication center in the world. The brain (5 – to control) your body functions and keeps all parts of your body working together. Thousands of messages from all parts of the body (6 – to send) to and from the brain.

Messages (7 – to carry) to the brain by sensory nerves. Special places, or centers, on the brain receive sensory messages from all parts of the body. When messages (8 – to receive) by centers, the brain (9 – to interpret) them.

All day long your muscles and your brain (10 – to work). By the end of the day they (11 – to be tired). Then your brain and your muscles (12 – to start) to relax. Before long, you go to sleep. As you sleep, the big muscles in your body relax
