

Listening-Emergency

Please number the actions when an emergency happens.

Perform CPR if the person remains unresponsive.

Call for help, 911 for emergencies.

Stop the bleeding.

Check for breathing and pulse.

Provide all information. (name, gender, age, location, type of emergency, conditions of the injured person....)

Clear the person's airway if he/she is not breathing.

Determine responsiveness.

Check if the surrounding area is secure to proceed.

Provide first aid for a broken bone.

Now listen to the audio and rearrange your answers.
