**EXAMPLE: B**

This is something you are able to do, for example, communicate well with people, give good presentations or create something beautiful. People might learn it at school, from friends or the Internet. It can be useful to have for people's future careers because companies ask for some.

**Text 1** \_\_\_\_\_

This word describes a group of people who need to be considered when a picture is painted, or a book is written by an artist or writer. It also describes people who are in a museum to see art, or the people in the cinema to see a film.

**Text 2** \_\_\_\_\_

In some jobs, a group of people work together to get all the work done. For example, when films are made or when people fly to space. It is important that everyone in such work groups communicates well and listens carefully to the leader.

**Text 3** \_\_\_\_\_

When people travel, they need to consider this to know how hot or cold a place is and what clothes to wear. Also, it is used by people when they cook. It is important to know how hot the cooker needs to be to cook the food well.

**Text 4** \_\_\_\_\_

People receive this when they are young but also when they are older. Boys and girls go to school and learn new things, and later in their lives, some of them go to college or university. It is important for everyday life and to get good jobs.

**Text 5** \_\_\_\_\_

If people make something smaller, they take this action. It is the opposite of increase. For example, to protect and improve the environment, people need to do this to use less energy or water. Also, people who want to be healthy need to eat less sugar and fat.

**Text 6** \_\_\_\_\_

When people do this action, they have ideas about the present or future. They think about what something looks like or what might happen. Creative people often do this in their jobs to make something new. Also, children like to do this when they tell stories or draw.
