## תרגול ארבע פעולות חשבון

$$250 + \underline{\hspace{2cm}} = 375 + 60$$

$$560 + \underline{\hspace{2cm}} = 420 + 240$$

$$720 + \underline{\hspace{2cm}} = 940 + 9$$

$$\underline{\hspace{2cm}} : 8 = 63$$

$$\underline{\hspace{2cm}} : 7 = 25$$

$$\underline{\hspace{2cm}} : 6 = 46$$

$$5 \times \underline{\hspace{2cm}} = 850$$

$$9 \times \underline{\hspace{2cm}} = 2,763$$

$$2 \times \underline{\hspace{2cm}} = 1,876$$

$$1,450 - \underline{\hspace{2cm}} = 1,500 - 289$$

$$1,100 - \underline{\hspace{2cm}} = 1,145 - 647$$

$$900 - \underline{\hspace{2cm}} = 1,008 - 519$$

$$\underline{\hspace{2cm}} : 28 = 37$$

$$\underline{\hspace{2cm}} : 19 = 64$$

$$\underline{\hspace{2cm}} : 94 = 26$$
