

Problem Solving Strategy**Make a Table**

Make a table to solve.

The Sahara Desert in Africa has an area of 3,500,000 square miles. The Simpson Desert in Australia has an area of 56,000 square miles.

In North America, the Mojave Desert has an area of 15,000 square miles; and the Kalahari Desert in Africa has an area of 275,000 square miles.

| Desert | Continent | Area (sq mi) |
|--------|-----------|--------------|
| | | |
| | | |
| | | |
| | | |

1. Which desert has the greatest area?

2. Which two deserts are located on the same continent?

3. Which deserts have an area of less than 100,000 square miles?

4. On which continent is the desert with the least area located?
