

Use of English • Part 3

For questions **25 – 34**, read the text below. Use the word given in capitals at the end of some of the lines to form a word that fits in the gap **in the same line**. There is an example at the beginning (**0**).

Write your answers **IN CAPITAL LETTERS** on the separate answer sheet.

Example: **0**

C	O	M	P	E	T	I	T	I	O	N									
---	---	---	---	---	---	---	---	---	---	---	--	--	--	--	--	--	--	--	--

Skyscraper? No, 'water-scraper'!

Each year, EV Magazine hosts a skyscraper design (**0**) Most entrants imagine giant buildings taller than anything under construction today. However, the most (**25**) entry this year went the opposite route. Malaysian designer Sarly Adre bin Sarkum's (**26**) to the problem of conceiving a different kind of development was to drop his building straight downwards into the sea. He deliberately designed it to contrast with the skyscrapers that make up most of the entries, and to highlight sustainable (**27**)

His self-sufficient 'water-scraper' would be similar in (**28**) to the Empire State Building, but with only a couple of storeys above the sea's surface. Wind, solar, and wave power would provide energy and a green space containing forests and (**29**) areas at the top would provide food and oxygen. Living and work areas would be below the sea's surface. The structure would be kept level by giant tentacles. The tentacles would also generate electricity through ocean (**30**)

No-one is building anything like this now but it is (**31**) to be certain of what our future (**32**) needs will be. Land will become scarcer as population (**33**) accelerates and, since approximately 70% of the Earth's surface is ocean, cities in the sea may one day be a (**34**)
