Get cold feet

Definition

Cold feet is a phrase which refers to a person not going through with an action, particularly one which requires long term commitment, due to fear, uncertainty, and doubt A common use of the phrase is when people fear the commitment of marriage and get "cold feet" before a wedding ceremony.

3. Any more idioms from the episode?

1. Read the conversation

A:When are we going to get a new car?
B:I don't know. We can't afford it now that you've stopped work.
A:Did you talk to your boss today?
B:Yes.
A:Did you ask him for more money?
B:Well...
A:Oh, David, you promised!
B:I didn't promise...
A:Yes, you did. Your were going to tell him you'd leave if he didn't give you a pay rise.
B:Well that wouldn't do much good, would it? If I ended up losing my job we'd have no money, at all.
A:Oh, come on, stop making excuses. You didn't say anything because you got cold feet again. No courage, that's your trouble.

2. Have you ever gotten cold feet? Make and conduct a dialogue in pairs.
