Passive of present continuous, present perfect, future 🔊

If the agent (the person or thing doing the action) is unknown or obvious from the context, it's better to use a passive form. However, if the person or thing doing the action needs to be emphasized, it's better to use an active form.

The spyware **is being used** to collect information about college students. (Agent is unknown.) Social networking sites **have been used** in criminal investigations. (Agent is clear from context.) A criminal organization **has created** this virus, not an amateur hacker. (Agent is emphasized.)

The passive is very rarely used with the present perfect continuous. Use the passive of the present perfect instead.

People have been posting more videos to the Internet this year than ever before.
