GETTING IN LOVE

My life has changed a bit since I met my girlfriend. I used to go to parties every weekend. Stay till late, drink a lot of beer and smoke cigarettes.

But now, with Christine, I don't go to parties very often because she doesn't like to dance. And, I don't drink or smoke as much I used to.

She prefers for us to go out for dinner or have a small party with some friends at her place. I didn't use to go out for dinner, but now I do. This is another thing that I do now and that I didn't use to do: study. Since Christine is in my same class, we usually study and do our homework together. It's very nice to have a girlfriend.
