

LIVE WORKSHEET

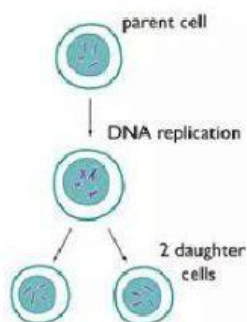

Mitosis and the Cell Cycle

Mitosis is used for:

The Cell Cycle

Cell Division

1. Most of a cell's life is spent in a period of growth called:
2. DNA replicates during:
3. The nucleus divides into two identical nuclei during
4. The stage of the cell cycle that immediately follows mitosis is called:
5. Mitosis begins with _____ parent cell(s) and ends with _____ daughter cell(s).
