SECTION

A

Listen and fill in the blank with a suitable word.

Global warming is the steady increase in the earth's (1) _____. More and more scientists believe that is what's causing chaotic weather around the world – the hurricanes, droughts, (2) _____, high tides that are striking more and more countries.

The earth has never been hotter. Its average temperature is now the highest since scientists began measuring it (3) _____ years ago. Since the middle of the 19th century, global temperatures have risen by 0.5 degrees Celsius. That may not sound like much but the difference between our temperature and an ice age is only about (4) _____ degrees.

The earth has seen major changes in climate before. But most scientists agree this period is (5) _____. Many believe the present changes are caused by our own activities, by the way we live. If that doesn't change, many forms of life on our planet may not survive.

Choose the letter A, B, C, or D to indicate the word whose underlined part differs from the other three in pronunciation in each of the following questions.

6. A. global B. greenhouse C. energy D. underground
7. A. eliminate B. equality C. educator D. encourage
8. A. ceremony B. couple C. income D. culture

Choose the letter A, B, C, or D to indicate the word that differs from the other three in the position of primary stress in each of the following questions.

9. A. environment B. equality C. contaminate D. electronic
10. A. enroll B. treatment C. threaten D. access

Choose the letter A, B, C, or D to indicate the correct answer to each of the following questions.

11. Electronics could _____ our body, couldn't they?
A. harm B. harmful C. harmless D. be harmed

12. _____ is the unfair treatment based on gender, age or race.
A. Elimination B. Equality C. Discrimination D. Enrolment
13. She is _____ girl in our class.
A. the most intelligent B. more intelligent
C. most intelligent D. intelligent
14. I think our government has _____ considerable progress in gender equality.
A. done B. taken C. given D. made
15. He is trying to buy the same ring _____ he lost five months ago.
A. that B. which C. Ø D. All are correct
16. The children became _____ about cartoon movies.
A. exciting B. to excite C. excited D. excite
17. Many fishes are in _____ of dying out because of fishing and pollution in the marine area.
A. dangerously B. dangerous C. endanger D. danger
18. We _____ stop when the traffic lights are red.
A. must B. should C. can D. ought to

Choose the letter A, B, C, or D to indicate the underlined part that needs correction.

19. (A) If I (B) passed this exam, I'll (C) go to (D) the university next summer.
20. The (A) chemical pollutants (B) from vehicles and factories make (C) the air, water and soil dangerously (D) dirtyly.

Read the following passage and choose the letter A, B, C, or D to indicate the correct word or phrase that best fits each of the numbers blanks.

Different kinds of animals have appeared and disappeared throughout Earth's history. Some animals go extinct because the climate (21) _____ they live changes. The climate may become wetter or drier. It may become warmer or cooler. If the animals cannot change, or adapt, to the new climate, they die.

Some animals go extinct because they cannot (22) _____ with other animals for food. Some animals go extinct because they are killed by enemies. New kinds

of animals are always evolving. Evolving means that the animals are changing (23)_____ from generation to generation. Small differences between parents, children, and grandchildren slowly add up over many, many generations. Eventually, a different kind of animal evolves.

Sometimes many of the animals on Earth go extinct at the (24) _____ time. Scientists call this a mass extinction. Scientists think there (25) _____ at least five mass extinctions in Earth's history. The last mass extinction happened about 65 million years ago. This mass extinction killed off the dinosaurs.
